

EXHIBIT 1386-PH PACKER / PROCESSOR OF MANDARINS WITH ATTACHED STEMS AND LEAVES

PROVISIONS FOR THE INTRASTATE OR INTERSTATE SHIPMENT OF MANDARINS WITH ATTACHED STEMS AND LEAVES FROM OR WITHIN THE ASIAN CITRUS PSYLLID STATE INTERIOR QUARANTINE AREA

To Be Used in Conjunction with Master Permit QC 1386

Establishment agrees to the following:

1. Mandarin Fruit with Attached Stems and Leaves

Under the California Code of Regulations, Section 3435 and the Federal Domestic Quarantine 301.76 for Citrus Greening and Asian Citrus Psyllid, citrus fruit in bulk containers or bins and citrus fruit with stems and leaves attached are considered hosts or possible carriers of Asian citrus psyllid (ACP) and must not move within or leave the ACP quarantine area(s) unless complying with all of the following:

2. Eligible Mandarins with Attached Stems and Leaves

- a. Mandarins with attached stems and leaves grown/originating from an area quarantined for Huanglongbing (HLB) or regulated for Sweet Orange Scab (SOS) are not eligible for this permit.
- b. Mandarins with attached stems and leaves grown/originating within an ACP quarantine area shall not be packed/processed in an area that is quarantined for HLB or regulated for SOS.

3. Approved Sourcing

Ensure the fruit is shipped from a Grower/Producer or Packer/Processor under compliance with the ACP Program.

Ensure the fruit is transported/hailed by transporters/haulers under compliance with the ACP Program.

Establishments operating under compliance can be verified online at:
https://www.cdfa.ca.gov/plant/acp/reg_establishments.html

4. Intrastate and Interstate Shipments Under Master Permit QC 1386

Under Master Permit QC 1386, eligible mandarins with attached stems and leaves may be shipped intrastate or interstate if compliant with the following requirements:

- a. Mandarins with attached stems and leaves grown within ACP-only quarantined areas may be shipped intrastate to packing/processing facilities inside or outside of an ACP quarantined area. Shipment must be contained within a fully enclosed vehicle or be completely covered with tarp.
- b. Mandarins with attached stems and leaves must not be commingled at any time with any other fruit.
- c. All green waste found in the transportation vehicle and falling from the mandarins during packing/processing shall be collected, double bagged, and disposed of in a landfill in an ACP Program approved manner.
- d. Notify the local County Agricultural Commissioner as soon as possible and no later than 24 hours after spillage of any shipment.
- e. When all the compliance agreement requirements have been met and packed under industry standard packing house procedures (#5), the packed mandarins with attached stems and leaves may be transported intrastate or interstate to any location.

5. Industry Standard Packing House Procedures

The mandarins with attached stems and leaves must undergo:

- a. Washing with brushes, and
- b. Disinfestation, and
- c. Waxing, and

- d. Drying, and
- e. Culling, and
- f. Grading, and
- g. Final packing.

6. Shipments Received from a Grower, Transporter, or Other Establishment NOT Under Compliance

If a shipment arrives from a Grower/Producer, Transporter/Hauler, or Packer/Processor not operating under compliance with the ACP Program, or if the shipment arrives not fully enclosed or tarped, all of the following must be implemented:

- a. Do NOT pack/process the shipment.
- b. Immediately contact the local County Agricultural Commissioner.
- c. Segregate the shipment from all other ACP host material and apply proper safeguards to avoid potential spread of ACP. For approved safeguarding measures, contact the local County Agricultural Commissioner or ACP Program.
- d. Provide all shipping documents/certificates accompanied with the shipment to agricultural officials upon request.

7. Green Waste Disposal

All green waste, including leaf and stem debris, must be disposed of in accordance with the ACP Program, local County Agricultural Commissioner, under QC Master Permit 1289 or other ACP Program approved manner.

8. Trapping and Inspection

Allow agricultural officials to inspect the premises to ensure compliance with this agreement, obtain and review records of all shipments destined to locations outside the ACP quarantine area and place and service traps for the detection of ACP.

9. Records

Maintain records of all ACP host shipments leaving the quarantine area and provide the following shipment information to the local County Agricultural Commissioner on a weekly basis.

- a. Intrastate shipments
 - i. Number of boxes shipped
 - ii. Number of pounds per box
 - iii. Destination county
- b. Interstate shipments
 - i. Number of boxes shipped
 - ii. Number of pounds per box
 - iii. Destination state

10. Training

Ensure all employees receive training to be compliant with all specifications of this compliance agreement exhibit.

11. Information Posting

Place informative posters and associated ACP information supplied by the ACP Program in a conspicuous location.
